RISKS & OPPORTUNITIES

Retention — **SDG LOST — $550M redeemed** 17 Feb 2026: UBS committee end-Mar to formally remove from approved list. David Hochuli requires active wind-down communication before 24 Mar.

Retention — **CT UK Equity Income at risk (~$63.5M)**: fund on UBS watchlist after −9% YTD underperformance; review held 17 Feb — positive tone but close monitoring continues.

Watch — **SGEEI at risk (~$600M)**: UBS added second income manager; PM transition to Matt Van De Schootbrugge and options strategy changes are key retention levers — physical Zurich meeting 26 Mar 2026.

Pipeline — **Japan SICAV discretionary allocation (~$50.0M)**: Karl Gräff-led, 6–9 month timeline; Japan AUM surged $66M → $400M (2024–Feb 2026). David is senior analytical gatekeeper.

RECENT ACTIVITY

09 Mar 2026 Virtual Meeting

Informed **David** that **SDG fund** remains open; no final wind-down decision made yet. Committee review end-March will determine removal from UBS approved list.

17 Feb 2026 Meeting

UK Equity Income annual review with Karl Gräff, Sandro Pattara (UBS) and Jeremy Smith (CTI) — fund placed on **UBS watchlist** after Q4 2025 underperformance; Jeremy confirmed YTD −8.5% vs BM; +5.2% as of 16 Feb; combined SICAV/OEIC AUM ~$100M.

UPCOMING MEETINGS & SCHEDULING

1. **SDG Fund Wind-Down Communication — Urgent**
   No formal communication sent to David on wind-down timeline; UBS committee meets end-Mar. **Brief David before 24 Mar 2026** to protect relationship goodwill.
2. **SGEEI Physical Zurich Meeting — 26 Mar 2026**
   Confirm David Hochuli attendance; circulate updated options overlay results, Matt's track record, and beta trajectory data before the meeting.
3. **Japan SICAV Pipeline — Schedule Dedicated Call**
   Book a call to present Japan SICAV performance data (+507% AUM since 2024) and reinforce the deployment narrative with David alongside Karl Gräff's 6–9 month timeline.

NEXT

1. **Send SDG wind-down timeline** to David before end-March UBS committee — confirm CTI's plan to close UBS share classes and answer final operational questions to preserve relationship.
2. **Circulate SGEEI monthly commentary** (Feb & Mar) and updated beta trajectory to David ahead of 26 Mar Zurich meeting — directly address his concern that portfolio beta (0.84) is too low.
3. **Progress CT Japan SICAV pipeline ($50.0M)**: share fund performance factsheet (SICAV $400M AUM, 100% external) — highlight $98M Q1 2026 inflows and clarify SICAV vs OEIC performance differential.
4. **Cross-sell CT (Lux) Global Technology** — UBS AUM grew $50M → $109M (2024 to Feb 2026); leverage positive momentum and David's ESG focus to explore **CT (Lux) Global Focus** or Active ETF capabilities.

DISCUSSION ANGLES

→ **SGEEI Transition & Beta Optimisation:** David flagged that beta (0.84) is too low and queried backup for Chris Childs — open with "We've raised the overwriting ratio to 35% to lift income by 50–100bps; here are the first month results and how Matt is tracking."

→ **Japan SICAV Momentum Story:** CT Japan SICAV AUM grew from $66M to $400M (+507%) since 2024; frame as "you identified this early — Karl has the passive ETF bridge in place and we're ready for the next discretionary deployment tranche."

→ **ESG Voting Transparency Service:** David recently requested voting records on Microsoft, Amazon & Unilever for a UBS SI mandate annual review — proactively offer a quarterly ESG voting summary and position-level transparency service to differentiate CTI as the most responsive ESG partner in UBS's fund roster.

CLIENT IN THE NEWS

- **UBS Cuts ESG Engagement Allocations**
  UBS CIO reduced engaged mandates from 25% to 20% in ESG portfolios, directly triggering the $550M SDG redemption and signaling a broader de-risking of concentrated ESG manager positions.
